

29 June 1964

MEMORANDUM FOR: Acting Chief, Operations School/TR

SUBJECT : Internal Defense Training of JOTs [REDACTED] 25X1A

REFERENCE : A. Memorandum for DTR from AC/OS/TR dtd 17 June 1964,
25X1A Subj: Conference [REDACTED] on JOT Program
25X1A B. Memorandum [REDACTED] from AC/OS/TR dtd
22 June 1964, Subj: JOT Program Internal Defense
Training

1. This memorandum outlines our current preparations for internal defense instruction in OC #18 and is in response to your request in Reference B.

2. We are developing internal defense coverage along the lines described in Reference A, and have tentatively established 24 August 1964 as the date for kicking off this instruction in OC #18. By this date our instruction format will be worked out, and a student handout prepared, explaining our responsibility for internal defense instruction under NSAM 283 and identifying the course coverage relating to this responsibility. This handout will be made available to you, and will be a summary of our internal defense instruction here.

25X1A 3. At present, Mr. [REDACTED] of this Staff is surveying the present OC curriculum, reviewing pertinent written materials available locally, and determining possible additional use of [REDACTED] faculty members in the presentation of internal defense instruction. Incidentally, during 25X1A his visit here Mr. [REDACTED] passed along considerable information on internal defense activities at DOD as well as comments on how these activities relate to the Agency case officer.

25X1A

25X1A 4. As far as Headquarters material is concerned, detailed discussion and research there will have to wait until after the conclusion of OC #17 on 10 July. Mr. [REDACTED] intends to devote virtually full time to the pulling together of internal defense material for OC #18. In addition to meeting with OTR representatives as described in Reference A, he hopes to meet with DDP desk officers primarily responsible for the development of Agency internal defense plans for the critical countries. From these discussions he hopes to develop presentations illustrating case officer responsibilities at the various stages of insurgency. We are particularly interested in establishing for the student the relationship between our instruction on group penetration operations and Phase I insurgency. This is an area in which we have considerable course coverage but to date this material has not been considered in the context of the OIDP. Paramilitary instruction related to Phase II insurgency operations will not, of course, be neglected. In OC #18 we intend to make a particular effort to schedule

25X1A

our paramilitary coverage to coincide with our consideration of country internal defense plans involving paramilitary commitments. In this regard, we would appreciate your assistance in the identification of Agency officers with major responsibility for the development of the critical country internal defense plans.

5. We are considering issuing an internal defense reading kit for OC #18. As part of this kit we should like to include a copy of the paper [REDACTED] presented to OC #17 on [REDACTED]

[REDACTED] This paper is not available here and we would appreciate it if you would make a copy available to us for reproduction. Also, is there a list of the materials available at the inter-departmental seminar? If so, could you please make this list available to us. In this connection, we would also welcome a visit from Mr. Paul [REDACTED] for the purpose of discussing inter-departmental seminar reading materials which might be suitable for use in the Operations Course.

6. We shall keep you up to date on our plans and progress.
